- Considerations:
  - Any districts that still need to publish 2022-2023 school year data between 9/5 and the Follow Up Collection's 10/2 close date must have their Student Information System (SIS) configured to use the new 2022-2023 ADVISER URL after 9/5
  - Please look for communication from your SIS vendor regarding the 2022-2023 change as well as information about when your SIS is ready for publishing 2023-2024 ADVISER data

# Reminders/Examples

- Common items/issues related to the Follow Up collection
  - Enrollment and SPED exit dates/types not matching
  - Exit enrollment type 205 not resolved
  - Instructional Units need to be updated through changes in Course data

## Several Error Examples

- Example 1: Error 734 - No Course Sections Reported at a School
  - Scenario – An entire School's course data is missing from ADVISER
  - Resolution – The SIS needs to send course section, student and staff information into ADVISER

# Reminders/Examples

- Example 2: Error 439 - No Current School Enrollment Record for a High School Student Enrolled In the Previous Year
  - Scenario – kiddo moved out of state over the summer
    - The Nebraska District did not exit the student from their enrollment in 21-22 so they are getting Error 439 in their 22-23 ADVISER Validation
  - Resolution – district needs to update their 22-23 ADVISER information
    - District needs to transfer the student's enrollment out in early 22-23 (before the start of the school year)
- Example 3: Error 716 - Student Demographics Record Missing for Student Enrolled in District
  - Scenario – A student has a School Enrollment record within your district, but the student's Demographics record has not been reported.
  - Resolution – The SIS will need to send Demographic information into ADVISER for the student listed in error. Or, the enrollment record can be removed entirely for the student, if they were not at your district in 22-23.
